

BLACK WIDOW EXHAUST

Black Widow Exhaust™ is "The Next Innovation in Exhaust Performance" creating an all new sound WITHOUT the restrictive and droning characteristics of chambered and packed mufflers. Black Widow's unique and effective design is the result of over 25 years of research and development.

INTERNAL DESIGN

Black Widow's patented high-velocity hourglass design compresses exhaust going in and forces exhaust going out – keeping an ideal balance between exhaust velocity and exhaust volume, thus reducing opportunity for drone and creating that aggressive Black Widow sound.

Note: The diagram above is for illustration purposes only to show exhaust flow.

BENEFITS

- Bi-directional
- Crisp, clean and aggressive sound
- Straight through design allows for maximum horsepower
- Constructed out of stainless steel
- Consistent sound throughout the life of the muffler
- Universal 2.5", 3", 3.5" and 4" sizes – for most applications
- Backed by a Lifetime Limited Warranty (See warranty details at www.blackwidowexhaust.com/technical/warranty)

* 3.5" and 4" sizes available for specific muffler models

X AND Y PIPES

Our X and Y pipes are constructed out of stainless steel tubing and designed with the same quality and attention to detail as our mufflers. And, like our mufflers, are designed to maximize airflow.

EXHAUST

The King of Sound.™

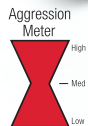

**High-Performance
Universal Mufflers**

Widowmaker

Our bullet-style Widowmaker and Neighborhater mufflers are ideal to replace that stock exhaust system hushed by an oversized muffler or for that clapped-out straight-piped ride. Or if you just want our MOST AGGRESSIVE muffler! Our mufflers allow for maximum horsepower while reducing drone** and maintaining that aggressive Black Widow sound.

EXHAUST

The King of Sound.™

Race Venom

(A.K.A. "ANGRY HOUSEWIFE")

The Race Venom and Angry Housewife, designed to create a more aggressive tone than the Venom 250-series, are a great option for restricted space and have become widely popular for anyone seeking that aggressive Black Widow sound, yet still provide the classic clean and aggressive tone characteristics as our Venom series mufflers.

Venom 250-series

The Venom 250-series is the perfect muffler for those who want a clean, classic, and aggressive tone and who want their ride to stand out from the rest. The 250-series set the benchmark for all of Black Widow's series of mufflers and is consistently a popular choice.

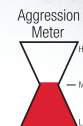

For additional configurations, kits, and exhaust accessories visit our website at blackwidowexhaust.com.

* 3.5" and 4" sizes available in certain models
** Drone is not muffler-dependent and can be due to improper setup. Professional installation is highly recommended.

Black Widow Exhaust supports compliance with state and federal regulations and is not responsible for the loudness of your vehicle.

Venom 300-series

If you're looking for a more aggressive sound but don't want to wake up the neighbors, the Venom 300-series will give you just that and, at the same time, give your ride a clean/deep aggressive tone while still turning heads.
